

# AI & STRATEGIC REINVENTION FOR EXECUTIVE LEADERS

Tokyo - Japan  
26 - Jan 2026 - 30 - Jan 2026  
\$5,000

**GENTEX**<sup>®</sup>  
TRAINING CENTER

## Introduction

Artificial Intelligence (AI) is no longer a future trend; it is a strategic asset that is reshaping the global economy and redefining how leadership is executed across industries. For executive leaders, staying ahead means more than understanding AI; it requires the ability to integrate it into strategic planning, organizational culture, innovation, and long-term vision. This 5-day professional course by Gentex Training Center is designed to guide leaders through the practical implications of AI, helping them to reinvent their strategies and decision-making frameworks for a new era of executive leadership.

The course emphasizes the transformative power of AI and its role in enabling organizations to adapt to rapid change, improve operational efficiency, and create value in uncertain environments. Through interactive discussions, practical scenarios, and strategic case studies, participants will explore how AI can become a core component of organizational reinvention.

## AI & Strategic Reinvention for Executive Leaders

### Course Objectives

- Understand the core principles and capabilities of Artificial Intelligence and how they influence business transformation.
- Assess how AI technologies such as machine learning, natural language processing, and automation can impact executive decision-making.
- Integrate AI into corporate strategy and innovation roadmaps to achieve competitive advantage.
- Lead digital reinvention initiatives that align with organizational goals and stakeholder expectations.
- Analyze real-world cases where AI has driven strategic change and business success.
- Cultivate a leadership mindset that embraces continuous transformation and emerging technologies.

# LEARN BOLD. LEAD BEYOND

GENTEX Training Center LLC | Orlando - FL, USA  
Info@gentextraining.com

- Identify the ethical, cultural, and organizational considerations involved in AI adoption at the leadership level.

## Course Methodology

This course uses a blended approach combining expert presentations, real-world case studies, group exercises, peer discussions, and practical implementation frameworks.

## Who Should Take This Course

- C-suite Executives
- General Managers and Managing Directors
- Strategy and Innovation Leaders
- Digital Transformation Officers
- Senior Government Officials
- Executive Advisors and Business Consultants

## AI & Strategic Reinvention for Executive Leaders Course Outlines
