

TRANSFER PRICING AND INTERNATIONAL TAX STRATEGIES

Manama - Bahrain
15 - Nov 2026 - 19 - Nov 2026
\$5,800

GENTEX[®]
TRAINING CENTER

Introduction

Transfer Pricing and International Tax Strategies are crucial components of contemporary international business. Organizations worldwide increasingly rely on cross-border operations, making it essential for finance professionals and tax managers to thoroughly understand international taxation frameworks. This comprehensive course offered by Gentex Training Center explores transfer pricing strategies, compliance requirements, and effective management of international tax risks. Participants will gain practical knowledge enabling them to design and implement compliant transfer pricing policies that align with global regulations and organizational objectives.

Transfer Pricing and International Tax Strategies Course Objectives

- To understand fundamental concepts of transfer pricing and international taxation.
- To identify and manage transfer pricing risks effectively within international business transactions.
- To explore OECD guidelines and their practical implications on global transfer pricing practices.
- To equip participants with skills to perform transfer pricing documentation and ensure compliance.
- To analyze various international tax planning strategies to optimize business performance.
- To enhance understanding of dispute resolution mechanisms, including Advance Pricing Agreements (APAs) and Mutual Agreement Procedures (MAPs).
- To explore strategies for managing international tax audits and reducing exposure to double taxation.

Course Methodology

This course adopts an interactive methodology combining practical case studies, group discussions, and engaging presentations. Participants will benefit from hands-on exercises designed to reinforce key concepts and strategies.

Who Should Take This Course

- Tax Managers
- Finance Professionals
- Accountants
- Auditors
